

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-10 (canceled).

11. (currently amended) A method of shipping complete computer systems on standard pallets, wherein each computer system is packaged in an individual container and each computer system includes a computer case including a processor, a monitor, a printer and accessories, the method comprising:

positioning a computer case, a standalone monitor, a printer, and accessories in an individual container having corresponding receptacles shaped to match each of the computer case, standalone monitor, printer, and accessories; and

stacking a plurality of the individual container[[s]] on a pallet in an array with an overall height of the pallet and containers being approximately 53 inches.

12-14. (canceled).

15. (previously presented) The method of claim 11, wherein each computer system is positioned in the container by:

inserting a first foam insert into a bottom portion of the container;

positioning at least one of the computer case, monitor, printer, and accessories into the first molded foam insert;

placing a second foam insert onto the positioned at least one heterogeneous electronic device;

positioning at least another one of the computer case, monitor, printer, and accessories onto the second foam insert;

placing a third foam insert onto another one of the heterogeneous electronic devices;

locating a top portion of the container over the first, second and third foam inserts and the at least one and the another computer case, monitor, printer, and accessories.

16. (previously presented) The method of claim 11, wherein the computer case and monitor are separate elements.

17. (previously presented) The method of claim 11, wherein the monitor is a cathode ray tube type monitor.

18. (previously presented) The method of claim 11, wherein the computer system further includes a monitor base.

19. (previously presented) The method of claim 11, wherein the standalone monitor is electrically disconnected from the computer case.
